16-port Full Gigabit Managed Industrial Ethernet Switch

IND-D-M-FG-1600-N

OVERVIEW

The IND-D-M-FG-1600-N is a full gigabit L2+ managed industrial Ethernet switch. It has 16*10/100/1000Base-T RJ45 ports. Each port can support wire-speed forwarding.

The IND-D-M-FG-1600-N has L2+ network management function, support IPV4/IPV6 management, static route full line-rate forwarding, security protection mechanism, ACL/QoS policy and rich VLAN functions, and is easy to manage and maintain. Support multiple network redundancy protocols STP/RSTP/MSTP (<50ms) and (ITU-T G.8032) ERPS(<20ms) to improve link backup and network reliability. When the one-way network fails, communication can be quickly restored to ensure important Uninterrupted communication for applications. According to the actual application requirements, you can configure multiple application services such as port

traffic control, VLAN division, and SNMP through the Web network management mode. Industrial switches meet the needs of the industrial Ethernet application environment. It is suitable for intelligent transportation, rail transit, power industry, mining, petroleum, shipping, metallurgy, and green energy construction and other industrial scenarios to form a cost-effective, stable, and reliable network.
